

ESEA Equitable Service Percentage Report
Title II and Title IV
School Year 2021-2022

Equitable service calculations for Title II and Title IV are derived using a “per-pupil” formula, where non-public school enrollment is calculated as a percentage of the combined enrollment between the non-public school(s) and the local public school district. Please note that non-public school enrollment is based upon survey response data from non-public school officials. Any non-public school listed below with "data unavailable" did not submit their enrollment data to the Department by the May 27, 2021 deadline. As such, these school(s) will be ineligible for equitable services under Title II and Title IV in the 2021-2022 school year.

The non-public school enrollment percentages noted throughout this document are only applicable for those non-public schools who, after consultation with their partnering school district, indicate plans to participate in the Title II and/or Title IV program(s) on the ESEA Non-Public School Participation Form.
